Article 8 ■

Objective and Investment Policy

The Sub-Fund is a financial product that promotes ESG characteristics pursuant to Article 8 of the Disclosure Regulation. Seeks to increase the value of your investment over the recommended holding period. The Sub-Fund invests mainly in equities of companies based in, or that do most of their business in, the People's Republic of China, and that are listed on stock markets there or in Hong Kong. The Sub-Fund may from time to time invest and have direct access to China A Shares via Stock Connect with an exposure of up to 20% of its assets. The Sub-Fund may invest in China via the R-QFII licence system.

The Sub-Fund makes use of derivatives to reduce various risks, for efficient portfolio management and as a way to gain exposure (long or short) to various assets, markets or other investment opportunities (including derivatives which focus on equities). **Benchmark** : The Sub-Fund is actively managed and seeks to outperform the MSCI China 10/40 Index. The Sub-Fund is predominantly exposed to the issuers of the benchmark, however, the management of the sub-fund is discretionary, and will invest in issuers not included in the benchmark. The Sub-Fund monitors risk exposure in relation to the benchmark and the extent of deviation from the benchmark is expected to be limited. The portfolio of the Sub-Fund is relatively concentrated compared to the benchmark and the investment manager seeks to generate excess return through active stock or sector selection and weighting. Market circumstances may limit the extent to which the performance of the portfolio deviates from that of the reference benchmark. Further, the Sub-Fund has designated the Benchmark as a reference benchmark for the purpose of the Disclosure Regulation. The Benchmark is a broad market index, which does not assess or include its constituents according to environment characteristics and therefore is not aligned with the environmental characteristics promoted by the Sub-Fund. **Management Process** : The Sub-Fund integrates Sustainability Factors in its investment process as outlined in more detail in section "Sustainable Investment" of the Prospectus. The investment manager uses a combination of overall market data and fundamental analysis of individual issuers to identify equities with superior long-term prospects. Further, the Sub-Fund seeks to achieve an ESG score of its portfolio greater than that of the Benchmark.

Risk Indicator (Source: Fund Admin)

Lower Risk Higher Risk

The risk indicator assumes you keep the product for 5 years.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movement in the markets or because we are not able to pay you.

We have classified this product as 5 out of 7, which is a medium-high risk class. This rates the potential losses from future performance at a medium-high level, and poor market conditions will likely impact our capacity to pay you. Additional risks: Market liquidity risk could amplify the variation of product performances. This product does not include any protection from future market performance so you could lose some or all of your investment. Beside the risks included in the risk indicator, other risks may affect the Sub-Fund's performance. Please refer to the Amundi Funds prospectus.
